THE TIMES.
A. H. CLEMENT EDITOR.
WEDNESDAY, FEB. 6, 1907

A recent writer says that Senator Hale, of Maine, has despaired of the republic. He takes the gloomy position that the "ship of state" has been scuttled, has struck on a reef, is leaking like a seine, has had an explosion in the 12-inch magazines, has shifted her ballast and the pumps are out of order. The life boats have been swept away. The seas are running mountain high. There is nothing doing, nothing doing, and we are going lower, down, down, where the wrecks of other haughty republics are whitening in ghastly solitude on "the sands of time." And yet Senator Hale is content to remain an earnest worker with the G. O. P., the author of all this wreck and ruin. Leave the leaking ship, Mr. Senator for it is your party and not your country that has struck on the rocks, and come aboard the Democratic life boat that fears no stress nor strain of any storm.

Mr. J. W. O'Grady has accepted the chairmanship of the Spencer Memorial Fund. The employees of the Southern propose to erect a monument to their deceased president and friend in Atlanta and to raise the money during the month of March. No higher tribute could be paid a great man by his associates.

Didn't break his head, just wounded the scalp. A negro school ar in a public school in Tappahannock tried to break the skull of his negro teacher. If he really wanted to break something why did'nt he "go for" an arm, or leg, or rib?

And the Japs must go to school or fight. "Lay on McDuff and d—n h h who first cries hold enough." Millions for defense but not a cent for tribute. No Jap shall make our laws, and yet "war is h—l."

Let not the lessons of the Lexcentenial die out of our memories, but let the immortal man, though dead continue to speak to us of "duty," the sublimest word in the English language.

The Thaw jury has been secured and the drama deepens. You needn't read books to find the romantic, the pathetic or the tragic.

Who has been looking after the unfortunate inmates of the Eastern Hospital while the medical men have been fighting for place and pay?

There is a flutter in the rank of the N. Y. "400." The dog show is on again.

Are they digging the canal or just talking about it?

Arcanum.

On Monday the 28th our neighbor, Mr. E. J. Steger, (Uncle Ned) reached his 87th birthday, and several of his neighbors by invitation joined him around his hospitably board in celebration of the event; it was the day of the deepest snow of this var and it would have gladdened the heart of the Farmville correspondent of the A. & P. TIMES to have seen the huge piles of wood on the porches ready for the fire pl ces; no going in snow and mud for Uncle Ned; light wood dry wood, hard wood, cut and piled in profusion in every available space. Some years ago a large party of young men were spending the night at his house, among them that rollicking, high spirited boy Fayette Cox, whom his comrades in the bedroom found piling on more wood on an already red hot fire, they remonstrated with him, telling him they did not need more fire, but Fayette replied "you all don't know Uncle Ned' like I do, he put this wood here to be burned, and if we dont burn it up Uncle Ned will be 'as mad as fire' in the morning."

Miss Hattie Steger, who is express manager at McDonald, W. Va. is at home for a week or two.

Mr. and Mrs. A. C. Garnett, of Curdsville are both on the sick list, one is near and the other gone by the four-score milestone, and both have won and held through these long years the respect and esteem of all their neighbors.

We have just received at this office a large new stock of FINE STATIONERY. Send in your order for job printing now, before stock is broken.

From "Down in Dinwiddie."

Dear TIMES:- Down in this neck o the woods things don't happen that is, not much, but still, we are reckoned on some importance by the tax collector and candidate for office, of which there is never a failing supply.

Dinwiddie is in the procession, and certainly up with any of them in the matter of bad roads, but conditions are improving for, recently some of the worst holes have been filled up, and others will be, so the politicians tell us. Possibly bad roads are not an unmixed evil for then the people can't run off to the town and village to spend every red cent they earn. True wealth consists not of what we possess but of learning to do with out and still being serenely content. But mere indifference is not contentment. Indifference is a state of hopelessness, a contentment is the adaptation of one to his circumstances, and making the best of them, while, at the time, trying to improve the condition. Now see?

With us, as with others the school question is one of great importance, and our people are going to make a live wire in near future. I am in favo of the country high school but not when its establishment is for the benefit of the favored few at the expense of the unfortunate many. Sometimes several primary schools are discontinued, thus depriving many small children of the advantages they afford, just to establish a high school, a band wagon.

It is a farce and reproach to require any school to make an average of 20 or 15 or even 10 scholars per month Here is a community with an enrollment of 15 or 18, and only two families don't like the teacher so they stop their children from going, thus breaking up the school and depriving 10, or 12, other children of school advantages.

Give us schools or refund on taxes. But great is the county school wagon fad.

It is a pathetic situation for our poor noncreasmen, and I move we pass around the hat to relieve their dire distress.

They receive five thousand($5 000) dollars per year, A session last about six months 180 days. At an expense of fifteen dollars ($15) per day that would be only twenty three hundred ($2,300) dollars to keep them from poverty, and to assist in curing another election.

It is strange, though, that a few of them ever resign, or decline another election, but with noble self-sacrifice they are willing to go back and serve the country for the dear people and five thousand a year.

But that increase is not for the present congress, we are told. No? But most of the present members expect to go back, or they will try to do so. See if they don't.

Notwithstanding the scarcity and unreliability of labor, our farmer made good crops and receive d good prices for their products. Farming down here is done with so much greater ease than in the hill country that the net results are much greater. The lumber interest is enormous and the music of the saw and whistle is heard in the land. There are still large bodies of timber standing, increasing in value everyday. Our people are prosperous. My circuit progress is very satisfactory, though we ither has been unfavorable for church going my congrega ions are large. They are kind and appreciative as shown by their many presents to their pastor, not for display or that it may be published from house tops, but from an innate kindness of heart for so they treat all their pastors.

They don't know I am writing this and will never see it, so I say it not to flatter them.

May prosperity and peace be yours

Yours truly,
PARSON.

Neglected Colds Threaten Life.

"Don't trifle with a cold." is good advice to give to a man, woman or child. It may be vital advice to a child. Proper food, good ventilation, and dry, warm clothing are the principal safeguards against colds. If these are not obtained through the change to another of the many ways in which the changes of a surprise from nothing to colds will be sought. But the ordinary fight of Mother Nature's forces if neglected, and a well established cold is the ground of eighth theria what honor is to the bee. The greatest menace to child life at this season of the year is neglected cold. Whether it is a child or adult, the cold sight or severe, the very best treatment that can be adopted is Chamberlain's Cough Remedy. It is safe and sure. The great popularity and enormous sale of this preparation has been attained by it remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by Appomatox Apothecary. J. E. Cox, Prop. E. F. Glover Evergreen.

WHY A FARMER SHOULD KEEP A BANK ACCOUNT.

Farmers as a rule do not keep books of account. Their accounts therefore, on the ledger of a bank will afford them a complete record of all their important transactions, involving the payment or receipt of money. A cancelled check, when returned by the bank, at the end of the month, constitutes the safest receipt one can have for showing the payment of money. Paying a laborer, a store account, or any other bills, with a check drawn on a bank, is safer than using money because the person receiving the check must endorse it and the check should be preserved as a receipt.

Money deposited in a bank is not so easily or so often "fooled away" as when carried a way in ones pocket. Try the experiment for one year of keeping a bank account and see if it does not pay you.

A large number of the most reliable farmers, in this section, have accounts with us. We are very desirous of having the accounts of farmers on our books and we will be glad to furnish, at any time whatever information we can in regard to the subject of banking.

The persons who open accounts with us are furnish check books free of cost.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every tangentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

"Ingleside," the hospitable home of Mr. H. C. Shearer, was a scene of gaiety last Friday evening when Mrs. Raleigh Chilton and Miss Bessie Shearer entertained the young people of the community at a "Cinderilla Party."

Dainty slippers bore the invitations to the friends a week before and requested al to come dressed in "old time" fancy costumes and powdered hair and bring an unmarked package addressed to some one of the guests. These requests were carried out most dilligently and there is seldom seen such an array of antiquated costumes as were seen at "Ingleside" that evening; some resurrected of nearly a century ago.

For a while all puzzled their heads over conundrums relative to a dainty supper. Soon a basing basket of interesting looking parcels was the centre of attraction and each in turn was held to view and all jointed in guessing its contents. The best package was addressed to "Cinderilla" and after each had their slipper measure carefully taken, Miss Ethel Robertson proved to be Cinderilla and was presented the package. Her gift was a tiny slipper autograph album and she was not long in getting the autograph of each sweet present. Mr. Hoge Robertson was presented the "booby," an old overshoe of enormous size.

Refreshments were then served, the little slipper cakes still carried out the unique idea of the Cinderilla Party.

After music and games which added to an already pleasant evening, the crowd dispersed, declaring that the "Cinderilla Party" was a most novel and pleasant surprise for all.

Everybody has his time to laugh but it was at our neighbor's time when a few weeks ago he was cleaning out his ice-house when he aroused from peaceful slumbers an animal of the feline family. In consequence of which our friend now wears one boot and one shoe, however a gun was soon procured and did its deadly work on the foe. This was a happy achievement but our neighbor did not "skin the cat."

If the ground hog were all that was "snowed under" we would'nt mind, but six weeks of winter weather now, after so many weeks of bright days, well, makes us wonder how we can stand the snowing under.

Mumps has been an unwelcome visitor in a number of our homes in our community this winter. We are glad to learn that most of such patients are now convalesc nt, and we hope there will be no more new cases to report.

SUITS and OVERCOATS-
With money in them.
And that's why you get money out of them, in wear. Whatever is put into Clothing you will get out of it, nothing more, nothing less.
THIS STORE-
pays more for its Clothing than any other Clothier - price for price, garment for garment, quality for quality. This cannot be truthfully denied. Selling for CASH makes this possible and along these lines we are fast building a great business. Then one price to all, may strike you favorably. Test us by comparison.
